## SUMMARY

---

A Frontend Developer with hands-on experience in building responsive web applications using React, HTML, CSS, and JavaScript. Passionate about clean UI/UX, creative problem-solving, and applying web technologies to real-world use cases. Currently seeking an internship opportunity to apply academic learning in a professional setting.

## EDUCATION

---

**Mindanao State University - Iligan Institute of Technology**, College of Computer Studies

Bachelor of Science in Computer Science, English

*Relevant Coursework: Data Structures and Algorithms, Software Engineering, Information Management*

## PROJECTS

---

**Budget Buddy**, Personal Project | [Live Demo](#)

**April 2024 – Present**

- Web app to help students plan monthly expenses. Built with React, SCSS. Backend with Node.js and MongoDB in development.
- Created a Node.js backend with RESTful APIs to connect to a MongoDB database for storing transaction data.
- Integrated product data contributed by developers/students to display available items with up-to-date prices.

**UniGear**, BSCS Class Project

**September 2024 – December 2024**

- Used Flask, a Python micro-framework, to make an e-commerce style platform for selling and buying school merchandise within MSU-IIT
- Collaborated closely with a team of frontend developers to create web features that aligned with the application goal of displaying products.
- Practiced Agile principles using Scrum, participating in sprints to ensure timely delivery of features.
- Implemented user roles, login functionality, and data validation for secure access and management.

**Student Information and Management System**, BSCS Assignment

**September 2024 – December 2024**

- Built a CRUD web application using Flask and MySQL to manage student data, subjects, and grades.

## SKILLS

---

**Responsive Web Design:** HTML, CSS, JavaScript, SCSS, Responsive Design

**Algorithms and Data Structures:** JavaScript

**Micro Web Framework:** Python, Flask
